

PW2

Wide Body Potwasher – 500mm x 600mm Rack

W 1235mm x D 850mm x H 1835mm

The Washtech Warewashing range represents the most powerful utensil, container and tray washing units in the Washtech line up. These machines are built to increase the efficiency of many operations by promoting continuous clean up. With powerful wash pumps, large internal chambers and a range of cycle times, the savings in labour, water, chemicals and energy assure rapid payback times.

Washtech's PW2 is a front loaded warewasher capable of washing large volumes of utensils, racks, mats, baking trays, bins and most 80 – 100 litre mixing bowls. It is highly efficient, taking less time and using less water than conventional sink or water blaster washing processes. The PW2 offers easy to use controls and multiple cycle times to wash a wide range of items, making it the perfect machine for bakeries, butcheries and food processing operations.
